

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

Weather and climate are the words that we often use when we talk to each other. Sometimes we don't understand that these are two different things. Weather is the state or conditions over a short period of time. Usually, it's a day or so. Climate is the typical conditions that we expect at a certain place at a certain time. While weather changes day to day, climate does not change for a much longer period.

Now there are a lot of factors that influence weather and climate. Human activities are changing both in many ways. Global warming is an example of climate change. As for weather, it is becoming more and more difficult to predict it. People must put a lot of effort to improve the situation. The future of our planet is in our hands, we should do our best to save it.

You will have to start speaking in 2 minutes and will speak for not more than 2 minutes (12–15 sentences). In your talk remember to speak about:

- where and when the photo was taken
- what/who is in the photo
- what is happening
- why you keep the photo in your album
- why you decided to show the picture to your friend

You have to talk continuously, starting with: "I've chosen photo number ... "
